Concerning your vulnerability disclosure report

Dear reporter,

Thank you for bringing a vulnerability to our attention. Together with vulnerability reporters like you we can increase the resilience of Dutch society in the digital domain and better protect our systems and systems of our partners.

As a sign of gratitude you will find a t-shirt included in this package. We hope you will wear it with pride.

We hope that next time you find a vulnerability in one of our systems or systems of the Dutch Central Government ("Rijksoverheid") you will contact us again. If you find a vulnerability at another organisation and you are unable to get into contact with the organisation or things don't go as you would've liked, please contact us as well. We will try and get you into contact with the organisation and mediate when needed.

Please visit our website for more information about our Coordinated Vulnerability Disclosure<sup>1</sup> and the Coordinated Vulnerability Disclosure Guideline<sup>2</sup> that we developed to provide building blocks for organisations to create their own policy.

Thanks again for your report!

Kind regards,

NCSC-NL
